

# TRIANGLE D'OR OF SAINT-TROPEZ

WELCOME DESCRIPTION PICTURES HISTORY MAP

*When renovating the house, we wanted to maintain the practical aspects of a Seventies Summer home, keeping it simple yet as efficient as possible.*

## A charming villa

The house is located on a totally private parcel entirely fenced, which includes a mature garden. The panorama offers both extended views of the sea and the hills. Ideally located on the Bay of Pampelonne, the property is situated off a small road that provides access to the famous private beaches of Saint-Tropez (Les Jumeaux, les Palmiers, Tropicana, Aqua Club...). This strategic location provides easy and traffic free access to both Saint-Tropez and the beaches.

The house is fresh and cool, elegantly simple and practical. There is a new chlorine-free swimming pool surrounded by two spacious wooden (teak) decks, ideal for outdoor dining, for sunbathing or simply resting in the shade. The villa has been completely painted and tastefully restored in 2004 by meticulous Swiss owners.

For Winter guests, there is a charming open fire and the house is equipped with a reliable general electrical heating system.
